#### PROJECT

Amendment #3 to project TP EMBER proposes the allocation of for the support of the League of Free Jurists of the Seviet Zone for the remainder of FY 1952.

#### FACTS BEARING ON THE PROJECT

Project TP EMBER was approved on 21 December 1969 for the purpose of supporting a compaign to empose illegal action and acts of inhumanity constitude or tolerated by the authorities in the Soviet Zone of Germany. Amendment #2 provided for the support of an International Congress of Jurista to meet in the support of the present amendment proposes to finance the attainment of two separate but related objectives: (a) the amendment of established cold war psychological activities in East Germany (C \_\_\_\_\_\_), (b) the development of a secure paramilitary network (C \_\_\_\_\_\_).

The increase in allocation to the established activities of project TP MAKER is required by an expansion of activities, by the further development of lecture tours, by increased salary costs, and by the increase in cost of preparing and distributing propagation.

On the other objective, the resistance potential in East Germany which has been nurtured under project IP MARK is now considered ready for crystallication into specific organized staybehind groups which can take full advantage of the experience so far gained and which will permit continued contact with our paychological and political assets for wartime psychological and, possibly, paremilitary purposes.

In its discussion of this project, the PAC recommended that the International Congress of Jupiets which meets this summer in Berlin should be prepared to reply through addresses delivered at the Congress to any Soviet legal attack on the position of the Western powers in Berlin.

#### ACTION

### PRICAMBINATION

That Amendment #3 to project TP EMBER be approved in the amount of
